The Best Insurance

William Boyd of the Curtis Publishing Company addressed the Manufacturers' Advertising Club at the Hotel Euclid, says the Cleveland (O.) Plain Dealer, on "The Preparations Necessary to a Successful Advertising Campaign." Mr. Boyd opened with the statement that unless a business organization is responsive to changing trade conditions it cannot be successful. He cited the growth of advertising to show it one of the new business conditions which every concern must meet.

Trivial advertisements are a waste of money, according to Mr. Boyd, and he likened the trial advertiser to the tradesman who sends out traveling salesmen once and then discharges them, expecting that results from the single effort will warrant engagement of other salesmen for a like single trip.

Mr. Boyd likened advertising to a business insurance. If an advertiser's place of business burns down, even though he has no fire insurance, he can at once rebuild and continue to do a profitable business because he has advertised, thereby creating a demand for his goods.

It is of course just as important that your ad. should be in the right paper as it is to have your insurance in a good company. Keep it in these columns.
